Dear Resident/ Proprietor,

REF: HIGH STREET, GREAT BROUGHTON – CARRIAGEWAY RESURFACING

This letter is to inform you that North Yorkshire County Council will be undertaking essential highway maintenance at the above location. The works are from the 30mph speed limit sign, south of the junction with Back Lane, to the junction with Howe Hill, the works area is shown on plan overleaf.

The works are currently programmed to commence on 20th January 2020 and last for 5 working days. The works will be carried out under a full road closure between the hours of 07:30 – 17:30 with a fully signed diversion route in place. Unfortunately, due to the locality of this road closure the diversion route is unavoidably extensive.

This may inevitably restrict vehicular access to properties directly affected but our contractors will try to assist you where possible during the working day. Please be advised there may be extended periods when access will just not be possible due to the nature of the works and physical constraints of the site. We request your assistance in the following ways:-

Please contact the Customer Resolution Centre on 01609 780780 to identify any special access needs you may have during the work period

Please familiarise yourself with the official diversion route

Cooperate and comply with any instructions issued by the traffic management operatives and take extra care whilst within the works area.

May I draw your attention to the County Councils Corporate Privacy Policy by using the following link <https://www.northyorks.gov.uk/privacy-notices>. When submitting a response, we will record personal information including your name and address.

For further information including diversion information and to sign up for alerts please go to; <http://www.northyorks.gov.uk/article/30550/Public-notices>

We would like to take this opportunity to apologise for any disruption that these works may cause and would again request your cooperation to help ensure an efficiently and safely executed project.

Yours faithfully
